WHO WE ARE

Protect The West Coast (PTWC) is a purpose-driven NPC committed to preserving the natural beauty and cultural heritage of South Africa's West Coast. We raise funds for the mission by transforming locally sourced waste materials into high-quality, functional, and stylish bags and accessories that reflect both our environmental values and our deep-rooted love for the region.

Every PTWC product is **handmade by skilled local artisans**, supporting livelihoods and celebrating craftsmanship. With a strong focus on **circular design** and **zero waste**, our range is a testament to **innovation, creativity, and environmental responsibility**.

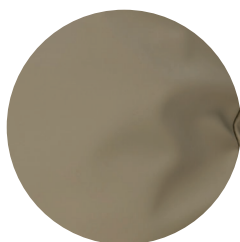

We stand by the quality and integrity of our work, which is why all PTWC **bags and accessories come with a lifetime warranty**—keeping material out of landfill for as long as possible. By choosing PTWC, you're not just buying a product; you're supporting a movement to protect our coastlines, empower communities, and turn waste into something truly worthwhile.

OUR MATERIALS

Our bags are made from **commercial waste materials**, sourced from local industries. These materials are by-products, B-grade ratings or waste scraps that are usually discarded of when the fabrication is being produced.

The outer shell or exterior of our bags are mostly made from Bedouin tents. This is combined with Cotton Canvas or Rib stop, both sturdy fabrications, that add texture and colour interest. Our bags are lined with Poly Twill sourced from old advertising banners.

With our value of **longevity**, we source and use only the **highest quality** zips, webbings, threads and trims.

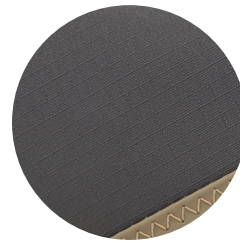

Bedouin Tents
